Portable sand and slurry pump with agitator
- for professional use

The Tsurumi HSD-pump is a small and robust submersible contractor's pump.

Forced agitation

The agitator installed on the motor shaft extension forcibly agitates the fluid for easy and efficient transmission of sludge and slurry.

Long life, low maintenance

No wear plate to replace. Impeller and agitator made of chromium iron casting, pump casing made of ductile iron casting.

Tough casing

Withstands abrasion, provides long service, high throughput. Remove only three bolts for easy access to the impeller.
